

# Phonics By Spelling -- Phonics products using music, pictures of the sounds, and fun to paint a map of phonics for reading success.

**\$29.95**

## Book 1: The Alphabet/Book 2: The Other Sounds:

These books and music CDs aid in the teaching of reading, spelling, and, all 44 phonetic sounds. The musical chants will help children, or those learning English as a Second Language, to know the English sounds and the spelling that make those sounds. The chants are taught crisp without adding an "uh" to the end of the consonant sounds. Learning the sounds crisply makes sounding out words possible. **The pictures in the books depict the sounds, not something that begins with the sound. This is more understandable for young children.** The back of each page has a description of the sound, spellings that go with each sound, and sample words for each spelling. This is a great resource for parents, teachers, and emerging readers. [www.phonicsbyspelling.com](http://www.phonicsbyspelling.com) has **sample pages**.

## Listening Center: \$115.95

Includes 6 copies each of Book 1 and Book 2 (12 books in all), plus 1 music CD. **Works well in a classroom. Makes it possible for each child to have a book while listening and learning the musical chants.**

## Book 3: Multi-Sound Blends: \$12.95

This book will help children blend 2 consonant sounds to create words (such as BR in the word, brick). Each page includes 2 or 3 pictures that demonstrate the sounds plus words for practice. Most effective when taught in chant form.

## Wall Cards: \$39.95

Enlarged 8" x 14" versions of pictures and spellings from Books 1 and 2. Set contains 50 cards (26 from Book 1, 24 from Book 2). **Perfect for use in a classroom along with the Phonics By Spelling books and musical CDs. Children, parents, and teachers use them as a quick reference for the spelling/sound connection, while they are reading. For a limited time, the 2 books and music CD come free with purchase.**

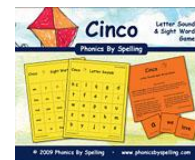

## Lesson Plans: \$39.00

These easy to use lesson plans include teaching ideas for children learning all 44 sounds, as well as for early and fluent readers. These plans are packed with effective ideas for home school, preschool, ESL, speech, and elementary school teachers. **These work well with Phonics By Spelling's books and music.**

## Cinco: \$12.00

This two-sided (Bingo-type game) is a fun activity for learning the alphabet sounds and 25 sight words. **The set includes 6 laminated player cards: one side features sight words, the opposite side features letter sounds. (1-6 players) A 12 player option is available by contacting us. [info@phonicsbyspelling.com](mailto:info@phonicsbyspelling.com)**

Free worksheets for Book 2 on the website.

## Student Activity Book: \$3.95

This personal word book includes a page for each phonetic sound plus room to draw a picture of the sound and spaces to write words that in the sound. **Especially useful for those with some reading and writing skills.**

## Phonogram Fun: \$20.00

Use this set of phonogram magnets with 2 magnet/dry erase boards for fun sound blending activities. Includes all the spellings for the different sounds (such as: sh, ph, ow, oi, silent e, etc.) **As with all Phonics By Spelling products, Phonogram Fun can be used to enhance any reading or phonics program.**

## Products in development:

**Cinco II:** Game for more sight words and phonograms.

**Sound Cards:** A set of 3x4 cards of all the sounds and their spellings for sound review.

**Reproducible Workbook:** This will include 2 worksheet pages, plus an eight page predictable reader for each sound.
